INTRODUCTION

Have you noticed that the ability to speak and understand English is no longer a luxury, but a necessity?

Take a look around you; English is everywhere. From your mobile phone and laptop to things you'll find out shopping, we are surrounded by the English language.

Not only can a good grasp of English improve your job prospects, it will also help you to better understand what's going on around you.

In this guide, we will show you that English is a part of your life – even if you don't realise it. And we'll highlight some common words to look out for. All **bold** words are in English. Let's see how many of them you can find!

PART 1

TECHNOLOGY

TECHNOLOGY

If you use technology, chances are you use English words every day.

For example, to read this guide you used your **mouse** to **click** on the **link** that brought you here. If you are surfing the internet right now you're probably using one of these **browsers**: Chrome, Explorer or Firefox.

Are we right? And once you are finished here, you can go back to our **homepage** if you want to explore our site.

TECHNOLOGY

Do you ever use your **PC** and **webcam** to speak face-to-face with friends and family in other countries? If you are **chatting**, make sure you don't have the **caps lock** on (**caps** as in **capitals**); otherwise your friend might think you're shouting!

To use capitals only on the first letter, use **shift** (to change the command on the key you are pressing). If you would rather not chat live, send an **e-mail** instead. Even if your friend is offline, they will get your message later.

TECHNOLOGY

Another great function of technology is sharing your photos. If you're using your mobile phone, you can use **Bluetooth**. If you want to share an old printed picture, you can **scan** it. And, with the right **software**, you can turn a sequence of images into a movie – then just press **play**, turn up the volume on your **speakers** and enjoy!

Images can also be **shared** on social networks and generate lots of **comments**, like **LOL** (laughing out loud) or **OMG** (Oh my God!).

And if you like **games**, English is even more essential. To **play, start** or realise the **game** is **over**, you definitely need to understand the language.

SHOPPING

SHOPPING

When you go shopping, look out for another English name: the mall.

There you will find **jeans** (**stretch** or **skinny**), **shorts** or **tennis shoes**. Women might go to the **supermarket** while the men browse the latest **gadgets**.

Maybe you are going to a **black tie** party, or perhaps you want to look for a **trendy** outfit. It might be easier to find a cheap **jacket** at an outlet – a shopping centre that is permanently on **sale**. With a little bit of luck you might even find an **80% off deal**. Almost **free**!

SHOPPING

Megastores are huge department stores that sell a large range of products and brands, while some specialise in a particular product. A lot of these stores have **loyalty programmes**, so their die-hard **fans** have more advantages.

PART 3

PLAYING SPORTS

PLAYING SPORTS

No matter where the game is played, the language of sport is English.

Every traditional sport ending with **ball** comes from the English language: basketball, football, handball, volleyball, baseball and any other **ball**-centered game you can think of.

Even if your favourite sport doesn't involve balls it's highly likely that English is somehow part of it, particularly if you like **extreme sport**. When you go **surfing** you can stand out from the crowd by doing **aerial** or **carving** manoeuvres.

PLAYING SPORTS

If you prefer skateboarding, then maybe an **Ollie** or a **kickflip** is the way to go, whether you prefer **street** skating or riding a **half-pipe**. For **motocross**, you might go **freestyle** and do a few **backflips**.

Now, that's **extreme**. If you like the outdoors, how exploring on a **mountain bike**? Or, if you're feeling really adventurous, **snowboarding** or **kite surfing** could be fun.

PART 4

EATING OUT

EATING OUT

If you have a hunger for learning, then check out some of the **menus** in **food courts** or **fast food** restaurants.

Hot dogs, bacon, cookies, hamburgers, cheeseburgers, sundaes and **banana splits** are just some of the treats on offer. Take **your pick!**

For the health-conscious, there are **diet** and **light** dishes. And for convenience, try a **drive-through** or **delivery** (there's no need to leave your car - or even your house!).

For those on a budget, there are also **self-service** restaurants. Countless food choices in English for everyone!

PART 5

AN ORDINARY DAY

AN ORDINARY DAY

Do you still need to be convinced that the world around you is immersed in English? OK, let's take a look at your day-to-day life.

Think about what you do in your spare time. Perhaps you enjoy chatting to the **bartender** during **happy hour** at your local **pub**.

Maybe you like to sit on your **sofa** watching a **reality show**, or listening to **rock** or **pop** music on the radio whilst flicking through a fashion magazine featuring **top models**.

It may take a little longer to notice these hidden foreign words when you're busy at work. After all, there's so much **feedback** and pressure to create new **slogans**.

AN ORDINARY DAY

Then, you still have to try to get home during **rush hour**. On the other hand, who knows? Maybe you've worked from your **home office** for a few days.

That could ease your **stress** and might even mean you won't need a **babysitter** - a benefit most **freelancers** can enjoy.

When you're on holiday, even in your own country, you'll probably need **diesel** if you're going on a **road trip**. And, as soon as you get to your hotel, you will be required to check-in. If you decide to go on a **city tour**, check out any **VIP** or **premium** offers that might make it more enjoyable.

AN ORDINARY DAY

We're sure you must be familiar with a few English words by now, especially those that are used in everyday conversation. But if you know someone who can't think of a single word in English, then maybe they're suffering a **blackout** and might need a **checkup**. Get your emergency kit!
